NEW MUSIC BOOKS.

GORDON'S PIANO-FORTE WITHOUT A MASTER.

Price 50 Cents.

This work contains 80 pages. The first 30 pages are devoted to the elements of music with easy and progressive exercises, the remaining 50 pages contains 69 popular Waltzes, Polkas, Marches, Operatic Melodies, Galops, Dances, &c.

The author has succeeded in his object of placing before the public a work that is suitable for beginners; it commences at the very root of the matter and proceeds very gradually. The Exercises open with a page devoted to the right hand alone. Then follows very simple exercises for the left hand alone. The first exercises for both hands are in the Treble clef and are very simple. As the exercises increase in difficulty a few five finger exercises are interspersed. It also contains a full sett of scales.

RICHARDSON'S NEW MODERN SCHOOL.

ENLARGED EDITION.

Nearly all the plates of the original Method have been retained in this work. At the suggestion of many of the most successful teachers, who have used the original work for many years, a large number of more simple and progressive Studies, Exercises and Melodies have been selected and added from the later and more modern works of Plaidy, Concone, Croisez, Heller, Beyer, Bertini, Czerny; Hunten, Clementi, and others. There is also added Czerny's letters on the study of music with a short treatise on Harmony and Thorough Base, and 46 Examples on Modulation. This work has been acknowledged by all who have used it to be more progressive and more pleasing to the student than any other method. The aim has been to select such studies as are melodic, that practice may not become irksome to the pupil.

The plan of arrangemen is as follows, a study is introduced to give practise on some especial point, a melody or recreation follows it, which carries in it the same principles, then will follow a few five finger exercises or technical studies. In the study of the Scale, the author to fix upon the student's memory and to give thorough practice in each key, arranges one or two exercises and recreations after each scale in the same key. This method enables the scholar to read readily from all the different keys. The work is very thorough, and one who studies it through may become a fine player.

The complete work contains 256 pages. **Price $3.75**

It is also published in 2 parts.
